

OUTDOOR FABRICS CLEAN & CARE GUIDE

EASY TO CARE FOR **BEAUTIFUL FABRIC**

Our fabrics are made to withstand the inevitable stains and wear from everyday living. Proper care and cleaning ensures you'll enjoy Outdura fabrics season after season.

What you'll need:

- » Clean, dry towels
- » Soft bristle brush
- » Spray bottle
- » Bucket of water
- » Garden hose
- » Dish detergent

How to clean spills and stains:

- 1 Remove any loose dirt. Blot (don't rub) spills and stains with a clean, dry towel.
- 2 In a spray bottle, mix a mild solution of dish detergent and warm water (do not exceed 100° F). Spray the mixture onto the affected area, allowing it to soak into the fabric. Gently scrub with a soft bristle brush.
- 3 Rinse the fabric thoroughly, removing all dish detergent residue. Using a garden hose may make this step easier.
- 4 Blot (don't rub) fabric with a clean, dry towel, soaking up as much moisture as possible. Let fabric air dry completely.

Other helpful tips:

- » Never dry clean fabric.
- » Never use a steamer on fabric.
- » If ironing is necessary, carefully iron on synthetic heat setting. Do not steam.
- » If machine washing, allow fabric to air dry.

Detergents can be used on Outdura without harm; however, it may remove some of the water and stain resistant properties. Fabrics can be treated with a wash-in product in the washing machine or a spray-on solution. These sprays can be obtained from dry cleaning supply stores, online stores or stores that sell marine-related products.

MORE RESOURCES

Visit **Outdura.com** for more detailed resources on cleaning different kinds of stains and spills—from wine to popsicles to mud. With informative videos, collection sneak peeks and industry insights, our website shows you how Outdura can enhance your everyday living with the beauty of brilliantly resilient fabrics.
